เรื่อง ทู The JSPS RONPAKU (Dissertation Ph.D.) Program ประจำปี ๒๕๕๘ (JFY 2015)

เรียน คณบดีคณะศิลปศาสตร์และวิทยาศาสตร์

สิ่งที่ส่งมาด้วย Application Guidelines for FY 2015

ด้วย สำนักงานคณะกรรมการวิจัยแห่งชาติ (วช.) ได้มีความร่วมมือทางวิชาการกับองค์การส่งเสริมวิชาการแห่งประเทศญี่ปุ่น (Japan Society for the Promotion of Science, JSPS) นับตั้งแต่ปี ๒๕๒๑ ในการนี้ องค์การฯ ได้มีโครงการทุน The JSPS RONPAKU (Dissertation Ph.D.) Program ให้แก่นักวิจัยของประเทศต่างๆ ในทวีปเอเชียและแอฟริกาที่มีความร่วมมือทางวิชาการกับ JSPS โดยมีวัตถุประสงค์เพื่อสนับสนุนนักวิจัย ซึ่งมีผลงานวิจัยที่มีคุณภาพและทำสะสมกันมาเป็นจำนวนเพียงพอให้มีโอกาสได้รับปริญญาเอกจากมหาวิทยาลัยในประเทศญี่ปุ่น โดยการเสนอวิทยานิพนธ์ที่จัดทำขึ้นจากผลงานวิจัยของตนเองโดยมีต้องเข้าศึกษาในหลักสูตรการศึกษาชั้นปริญญาเอกตามปกติ

สำหรับปี ๒๕๕๘ (JFY 2015) นี้ JSPS ได้ปรับเปลี่ยนรูปแบบการสมัครขอรับทุน โดยขอให้ผู้สนใจสมัครขอรับทุนส่งเอกสารขอรับทุนโดยตรงไปยังอาจารย์ที่ปรึกษาฝ่ายญี่ปุ่นซึ่งจะเป็นผู้ดำเนินการสมัครขอรับทุนบนระบบออนไลน์ของ JSPS ซึ่งกำหนดระยะเวลาไว้ ระหว่างวันที่ ๒๑ - ๒๗ สิงหาคม ๒๕๕๗ รายละเอียดเอกสารแนวทางการสมัครขอรับทุนดังสิ่งที่ส่งมาด้วย ผู้สนใจสามารถสืบค้นข้อมูลเพิ่มเติมพร้อมทั้งดาวน์โหลดแบบฟอร์มใบสมัครขอรับทุนได้ทางเว็บไซต์ <http://www.jsps.go.jp/english/e-ronpaku/> ตั้งแต่บัดนี้เป็นต้นไป

ทั้งนี้ ผู้สมัครควรศึกษาเอกสารแนวทางการสมัครขอรับทุนอย่างละเอียด และ JSPS ได้แนะนำให้ผู้สมัครปรึกษากับอาจารย์ที่ปรึกษาฝ่ายญี่ปุ่นอย่างรอบคอบ โดยเฉพาะอย่างยิ่งเกี่ยวกับระยะเวลาในการส่งใบสมัครไปยังอาจารย์ที่ปรึกษาฝ่ายญี่ปุ่น เนื่องจากแม้ JSPS จะกำหนดวันรับสมัครทุนไว้ข้างต้น แต่มหาวิทยาลัยในญี่ปุ่นบางแห่งอาจมีกำหนดวันปิดรับสมัครทุนที่ต่างกัน

จึงเรียนมาเพื่อโปรดทราบและกรุณาเผยแพร่ให้ผู้สนใจทราบทั่วกันด้วย จักขอขอบคุณยิ่ง

ขอแสดงความนับถือ

- b. Candidates must send their application documents to their prospective Japanese advisor well in advance of this deadline. (As some universities have their own deadline, candidates should consult their prospective Japanese advisor with regard to the time frame.)

10. Additional Point regarding Application Form 1

When preparing their applications, prospective Japanese advisors who are currently involved in a JSPS international exchange activities or project or who have been within the past 5 years are required to describe the results or anticipated results of that activity and any connection it has with making this nomination under the RONPAKU Program.

11. Selection and Notification of Results

(1) Selection process

Screening is conducted by JSPS's selection committee based on the three criteria listed below.

Selection Criteria

- (i) Based on their record of scientific results (e.g., publication of international journals, record of awards), candidates must be seen as "mature" researchers.
- (ii) The candidate's research proposal should be suited to pursuing a PhD degree through submission of a dissertation without matriculating a doctoral course. The feasibility should be very high that the candidate will obtain a PhD degree within a maximum of 3 years.
- (iii) The Japanese advisor must be suitable for supervising the candidate's research; sufficient advance communication must have been carried out between the advisor and the candidate; the research supervision plan must be well-prepared and specific.

* Research plans that require approval processing within the affiliated institution

Judgments regarding handling are required when the implementation of a research plan includes such aspects as the need for a counterpart's consent or collaboration, for handling personal information, for taking bio-ethics or safety measures, or other researcher aspects that require processing based on laws or regulations. Specific examples of such research would be questionnaire or interview surveys that include private information, surveys of cultural properties either in or outside Japan, the use of donated specimens, analyses of the human genome, genetic recombination experiments, and animal experiments. That is, surveys, research or experiments that require approval by an information-protection committee or ethics committee in or outside the host institution.

(2) Notification of selection results

- a. Notification of the selection results will be made in writing through the head of the applying institution to RONPAKU candidates by the end of January 2015.
- b. Regarding unsuccessful candidates, their Japanese advisors will receive a notice of their approximate ranking among all the applicants.

Non-selected applicants will be ranked in the following three tiers.

Non-selected A (upper tier)

Non-selected B (middle tier)

Non-selected C (lower tier)

All notifications will be made via sealed letter.

12. Supervision of Research

- (1) Over the period of their tenure (up to three years), RONPAKU fellows will visit a Japanese university to conduct research under the supervision of a Japanese advisor based on a visit plan approved by JSPS. No maximum is set on the number of times or length of periods of their stays within the limits of total funding for each fiscal year. However, the funding may not be used for travel to third countries.

- (2) When deemed necessary, the Japanese advisor may visit the RONPAKU fellow's home university or research institution to supervise his/her research based on a visit plan approved by JSPS. No maximum is set on the number of times or length of periods of their stays within the limits of total funding for each fiscal year. However, the funding may not be used for travel to third countries.
- (3) Travel plans should be made so that the combined days of visits by the fellow and his/her advisor is at least 30 days during a fiscal year.
- (4) At the end of each fiscal year, JSPS evaluates each fellow's research progress based on a report submitted by their Japanese advisors, and notifies the fellow of its decision on whether to continue the fellowship in the following fiscal year.
- (5) When considered necessary to advance the fellow's research, the Japanese advisor may, with JSPS's approval, appoint Japanese co-advisor(s), who is to be a full-time researcher at the university (or equivalently qualified person). The co-advisor(s) is to cooperate in supervising the dissertation research of the fellow and may, when deemed necessary, visit the fellow's home institution in place of the Japanese advisor.

13. Obligations of the RONPAKU Fellow

RONPAKU fellows should bear the following three points in mind. After selection, they will be expected to observe the regulations and procedures stipulated in the "PROCEDURES AND PROVISIONS FOR RONPAKU FELLOWS UNDER THE JSPS RONPAKU (DISSERTATION PhD) PROGRAM." Regarding the Proper Use of Competitive Funds

Based on the "Guidelines for the Management and Audit of Public Research Funds at Research Institutions (Implementation Standards)," released by MEXT on 15 February 2007, openly recruited programs in JSPS's International Program Department (IPD) are to be implemented in the following manner.

1. Eliminating unjustifiable duplication and over-concentration of competitive funding

(1) Measures to prevent unjustifiable duplication

In cases when a researcher is receiving or has been selected to receive competitive funding from either the Japanese government or an independent administrative institution for essentially the same research content that s/he is applying or has been selected for under a JSPS IPD program, his/her application may be removed from the screening process; if already selected, the selection may be cancelled; or the amount of the grant or funding may be reduced.

Whereas a researcher may apply for competitive funding under another system while in the process of applying for a JSPS IPD program, if selected for the other funding s/he must inform JSPS of such right away. If s/he neglects to do so, the selection decision may be cancelled or other action taken.

(2) Measures to prevent over-concentration of competitive funding

The selection decision may be cancelled or other action taken in cases when a researcher applying for a JSPS IPD program also uses other competitive funds, even for different research content, is judged not to be making efficient or effective use of all his/her allocated funding.

To verify this, if a researcher changes the content of his/her application (such as the status regarding application/selection for other funding) after submitting it to a JSPS IPD program, s/he must inform JSPS of such right away. If s/he neglects to do so, the selection decision may be cancelled or other action taken.

2. Measures against misconduct in research activities and misuse (etc.) of competitive funds

JSPS Regulation Number 4 (2013), "Measures against misconduct in research activities and misuse (etc.) of competitive funds" stipulates measures to assure impartiality in research activities, the proper management and execution of competitive funds, and the prevention of improper use of funding. It also provides disciplinary measures to be taken if a researcher funded under an openly recruited program of

JSPS's IPD engages in misconduct in his/her research activities or misuses (etc.) his/her competitive funds.

(1) Here, "misconduct" includes the fabrication, falsification or plagiarization of data used in research results, survey findings, or research papers. "Misuse" includes the use of competitive funds, either purposefully or due to gross negligence, for purposes other than conducting the approved project or in a way that violates the terms or conditions of their allocation. "Misuse, etc." includes the improper receipt of competitive funds based on intended misuse or falsified application filing. (Article 2)

(2) The objects of measures against misconduct and misuse (etc.) are as follows. (Article 15)

1) Objects of measures against misconduct

- Researchers determined to have committed misconduct
- Authors determined to have responsibility for the content of research papers (etc.) related to research judged to involve misconduct, even if the persons are not themselves determined to have committed the misconduct.

2) Objects of measures against misuse

- Researchers and their accomplices who engage in the misuse of funds
- Researchers and their accomplices who received competitive funding based on falsified application filing or other improper means
- Researchers who violate their obligation to properly manage their funds, even if they do not directly misuse them.

Disciplinary measures

- (1) In addition to cancelling the disbursement of the subject competitive funds, in the case of already-disbursed funds either part or all of the funds may be recalled. In determining the amount of the funds to be returned, consideration is given to severity of misuse, the degree of maliciousness, and the effect on the overall research project.
- (2) Projects will not be selected for funding if their application lists a researcher whom these measures are taken against as the principle investigator. Projects listing the researcher as a co-investigator will not be selected unless his/her name is removed.
- (3) Researchers whom these measures are taken against will not be allocated any competitive funding for all programs under JSPS's jurisdiction for a set period of time.

When determining the disciplinary measures to be taken, the name of the subject

researcher(s), his/her affiliation, the content of the measures, the name of the subject competitive funding system, the amount of allocated research funding, the content of the misconduct or misuse, and a report on the results of the investigation made by the research institution are to be expeditiously released to the public.

In addition, JSPS will not allocate competitive or other funds during the specified period of disciplinary measures taken by government agencies or other independent administrative institutions to researchers whose project application or participation eligibility has been restricted.

3. Handling of violations of related laws or regulations

When the content of a grant application is falsified or a project is carried out in violation of pertinent laws, regulations or guidelines, JSPS may not allocate grants or funds and may cancel the selection of the project.
